WALK WITH ME

CATALOGUE JAN 2024

Step into my world of art, where intuition guides my hand and creativity flows freely.

I'm delighted to invite you on a journey through my life as an artist and painter; a journey deeply intertwined with the very process of creation itself. My approach embraces spontaneity over analysis, allowing instinct and intuition to shape my work.

As I gave birth to this series Walk with Me, I embarked on a voyage of self-discovery within my creative process. My creative process is interwoven with landscapes and abstracts, a harmonious fusion that keeps my creativity in constant motion. This interplay preserves the fluidity and intuitive essence that defines my work, a testament to staying true to my artistic core.

Emerging from the depths of my subconscious, landscapes arise as echoes of memories and impressions etched over time. Each stroke of colour and form finds inspiration in the interplay of light within our natural environment and the intricate tapestry of our native bush. What captivates me is the role of psychology in perception: the interplay of light and shadow, the calculated colour palette, the use of impressionist techniques, and the delicate placement of intricate details. This orchestrated composition invites you to peel back the layers, exploring the depths of each scene.

My abstracts are a visual representation of the energy within. These pieces are a testament to unfiltered expression, where the canvas becomes a medium for untamed emotions and impulses. Drawing inspiration from my background in movement choreography and psychology, these abstracts mirror the dance of thoughts and feelings, revealing a visual map of the inner mind's intricate steps.

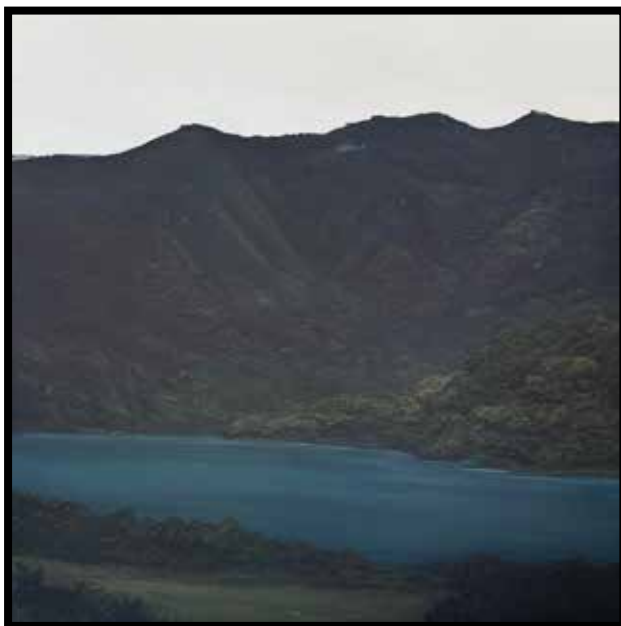

Your presence in this journey is integral. Shaped by your personal narrative, your perception weaves an intricate connection into my work. Your engagement is the brushstroke that completes my narrative, bringing a kaleidoscope of interpretations that resonate uniquely with you.

Ultimately, my art isn't just about exploration and discovery; it's an invitation to connect. It reflects my voyage of embracing the environment, intuition, celebrating diverse expressions, and translating dreams into tangible beauty. I welcome you to join me on this artistic odyssey. Together, we'll traverse the landscapes of creativity and imagination, exploring the dance of the mind and heart within each brush stroke.
